Company Notes:

Our pigs are raised in large pens, bedded on sawdust in naturally ventilated barns. Because of this we have more marbling which enhances the flavor of the meat. No growth hormones, no therapeutic antibiotics in the feed. We offer a wide variety of pork products - chops, roasts, hams, ribs, bacon, farmer sausage, smokies, breakfast sausage. With advance notice, we can customize orders or cuts to suit your needs.

Company Notes:

Free range, heritage breed pork, all on the list of rare breeds of Canada. Our pigs are allowed to roam freely, socialize and engage in instinctive behavior such as rooting, wallowing and foraging. All breeding animals live in social groups; even the boars are together with the sows all the time. There is no teeth clipping, tail docking or ear marking. we leave our litters together to avoid stress and fighting. Our sows are not crated. Instead, they give birth naturally and raise their young without interference. All animals have free-choice access to outdoors at any time. Sunshine, fresh air, good feed and a stress-free environment eliminate the need for any medications. No animal by-products are used in our feed except for occasional milk and hard boiled eggs. We don't administer antibiotics routinely and don't use hormones or steroids at all. We grow everything on the farm that makes the difference in our pigs' diet and, with that, the quality of our pork. Our farm has no waste issues; manure is returned to the soil where it becomes fertilizer. Our pork is selected to have a high percentage of intramuscular fat, like a choice steak. You can expect a different texture of the meat, darker colour, more marbling and incomparable flavour compared to any conventionally-raised pork. Truly local, truly exceptional pork!
