Company Notes:

We are a family business; our livestock is grass fed and grass finished.

Our pigs are on pasture, supplemented with certified organic peas and finished on milk and organic apple pulp. Our livestock forages on luscious pastures in the beautiful Chilcotin valley, ensuring optimum animal and human health. We use biodynamic practices to support biodiversity and are in partnership with The Land Conservancy. Our meat is high in CLA, omega 3 fatty acids and beta carotene.

Company Notes:

Free range, heritage breed pork, all on the list of rare breeds of Canada. Our pigs are allowed to roam freely, socialize and engage in instinctive behavior such as rooting, wallowing and foraging. All breeding animals live in social groups; even the boars are together with the sows all the time. There is no teeth clipping, tail docking or ear marking. we leave our litters together to avoid stress and fighting. Our sows are not crated. Instead, they give birth naturally and raise their young without interference. All animals have free-choice access to outdoors at any time. Sunshine, fresh air, good feed and a stress-free environment eliminate the need for any medications. No animal by-products are used in our feed except for occasional milk and hard boiled eggs. We don't administer antibiotics routinely and don't use hormones or steroids at all. We grow everything on the farm that makes the difference in our pigs' diet and, with that, the quality of our pork. Our farm has no waste issues; manure is returned to the soil where it becomes fertilizer. Our pork is selected to have a high percentage of intramuscular fat, like a choice steak. You can expect a different texture of the meat, darker colour, more marbling and incomparable flavour compared to any conventionally-raised pork. Truly local, truly exceptional pork!
