Address:

#4 1140 Tattersall Drive

Victoria, BC

V8P-1Y7

Regions Supplied: Vancouver island

Company Notes:

Untamed feast harvests specialty wild products. Eric and Michelle Whitehead, respectfully harvest gourmet, wild mushrooms throughout beautiful British Columbia. All of the mushrooms we harvest are gourmet edible species which have long been enjoyed in epicurean circles. These mushrooms are non-cultivable, they are gathered from secret, wild remote regions in BC the old fashioned way... with high hopes, hard hiking and a lot of knowledge based on previous harvest years. We harvest all our mushrooms ourselves. We do not hire harvesters. We dry them the same day as harvest to less than 10% residual moisture, In a special commercial mobile food dehydrator. We market them ourselves to some great retail locations and a few of the finest restaurants on the Island. From soil to sale, these gourmet wild mushrooms have been in our care alone. We work with local food enthusiasts to make these products easily available for your pleasure.

Products Available:
